

LAND SUBSIDENCE

THE LOWDOWN ON THE DRAWDOWN

FEATURING A LECTURE BY

MICHELLE SNEED

HYDROLOGIST WITH THE CALIFORNIA WATER SCIENCE CENTER,
U.S. GEOLOGICAL SURVEY

TUESDAY, OCTOBER 27, 2015 — 6:30 P.M.

CALIFORNIA ROOM | UC MERCED | PARKING IS COMPLIMENTARY AFTER 6 P.M.

Subsidence—the compaction of underground aquifers—in the San Joaquin Valley has been identified as the single largest alteration of the Earth's surface topography. The talk will discuss the processes and consequences of subsidence.

Michelle Sneed is a hydrologist with the California Water Science Center, US Geological Survey and the Groundwater Resources Association of California 2015 David Keith Todd Distinguished Lecturer.

STUDENTS ARE INVITED TO A
LUNCHEON AND DISCUSSION WITH MICHELLE

OCT. 27, 1 — 2:30 P.M. | KL 360
